The "Elden Ring" is a fantasy action RPG that lets you rise and embark on an adventure, as a character that is being born, on the world of Elden. It was created as a title that let you create your own unique and majestic character, and we aim for you to experience the thrill of finding the strength of the Lands Between to completely manifest your view of Elden as a video game. WORDS FROM PENTASPIN FOUNDER JACKIE: WHEN WE SET OUT TO CREATE ELDEN RING, WE DIDN'T WANT

THE SAME NEW ACTION RPG THAT MANY PEOPLE ARE PLAYING AT THE MOMENT. WE WANTED TO SHARE THE UNIQUE FEELING OF "REAL ADVENTURE" THAT VARYING UNKNOWN THREATS AND EARNEST CHARACTER DEVELOPMENT ARE ALL YOU CAN FIND. AT THE SAME TIME, WE WANTED TO CREATE A COMPANY WITH A STRONG VISION AND THE MOTIVE TO CREATE A TALENT OF THE LEADERS OF THE FUTURE. THESE VALUES PUSHED US TO NEW CREATION. WE KNOW WE'RE IN A GREAT SITUATION THAT IS FILLED WITH DREAMS AND PROPOSITIONS. WE WOULD LIKE TO TELL YOU WHO WE ARE, ABOUT OUR VISION, AND ABOUT OUR TEAM'S PRODUCTION. DREAMS : EVERYONE HAS THEIR OWN DREAM. YOU CAN SAY THE DREAM THAT YOUR COMPANY IS FILLED WITH IS THE DREAMS WE WOULD LIKE TO SEE OUR COMPANY REALIZE TOOK SHAPE. VISION : EVERYONE HAS THEIR OWN VISION. OUR VISION IS HOW TO OFFER THE

DREAMS OF OUR CUSTOMERS AS A PRODUCT THAT IS GOING TO BE CURRENT AND THAT WE WANT TO BRAND AS OUR DREAMS. TEAM : A TEAM DOESN'T EXIST BY ITSELF, IT HAS BUILDERS AND PRODUCTION PEOPLE. OUR FOUNDER JACKIE AND THE LEADING PRODUCTION MAN, HIDEHIMURUN, WERE ENSURED OF THEIR VISION A LONG AGO. WE WORKED ONGETTING OUR PRODUCT TO THE MARKET, AND THAT'S WHY WE'RE HERE! Story

Elden Saga

An epic drama loosely connected to the story of other MMORPGs that occur before and after it. The world of Elden Saga is the world of fantasy, a world where various races live together. The main character, Tarnished, becomes infused with a special magic when he washes ashore, although his origin has yet to be revealed. Tarnished goes on to gather allies, causes strife, and encounters massive creatures, and he meets beautiful enchantresses called *seraphim*. While playing, you'll have an opportunity to view a variety of different elements in their own unique perspectives.

A World of Fantasy

In this world, there is no step shortage of deities, which are the gods of the seven colors, white, blue, green, yellow, brown, red, and black. The gods are awesome, and in which vast number of gods exist, is an honor to fight a powerful god. The reason why there are so many gods is as follows. Every day, as long as there is a human, an adventurer who comes to this world, the gods concern themselves with them. They interact and jointly fight. And as long as they live, they pray to the gods to give them a new powerful magic or provide them with greater protection to free themselves from danger.

Finish the game. so I bought the game a few days ago and played it for a few hours before the save-scumming bug halted the game forever (with less than 100 Nydralani). A few

months later, I decided to put some effort into improving the way the game plays, so I made a new save and imported it. The game is great, to be fair, but I'm wondering how much of the game is actually salvageable. Things I've noticed as I played: 1. Almost every NPC is supposedly a member of the Elden Ring, but there's no indication that's true at all. I find myself walking around with my hand held out at the height of an Elden lord's soul, whilst wondering whether I've been sent to a band of chumps. 2. The racial and class system is a bit of a mess, even by Mass Effect's standards. Specializations in all classes are all straight-up L1/L2: ranged attacks, melee attacks, durability, etc. There are absolutely no specializations above that, and classes with specializations can't be changed. This makes a lot of things incredibly boring, like tanking. 3. The game is evidently structured so that you

get to the boss fights and then die. Which, if you're going to do that, why not just do that in the first five minutes instead of wasting seven hours grinding, unlike the first game where you could survive past the first boss fight indefinitely if you just played normal? 4. The story is fairly superficial, bordering on poorly written. It also features some particularly annoying bits, like pointlessly using exposition and description to explain things that were just on screen one minute ago. 5. The enemies are not just the same, but are literally the same, with no variation at all. I could literally set the game to auto-attack for all difficulty levels and it would still be a grindfest because they're all
